

## Goals

- Understand the brain underpinnings of behavior using the NeuroQuotient® model.
- Using the web-app to manage the neuro tool.
- Strategies to guide self-leadership development.

### Learning how to debrief NeuroQuotient® to boost client's development.

**Workshop Structure:** 4 x 2,5 h sessions in videoconference + inter-sessions videos.

1 or 2 individual tutorials, to prepare debrief for 2 real clients.

Access to the [academy.neuroquotient.com](http://academy.neuroquotient.com) to review contents for 6 months.

## Module 1

### Introduction

¿What? ¿How? ¿Who? ¿When?

Knowing the program, the participants in the workshop and the training resources.

## Module 2

### NeuroQuotient® structure

Neuro tool dimensions

Global vision of the model and its characteristics.

Brain/behavior from animals to humans.

## Module 3

### Neuroscience of behavior

Neuroscience foundations to connect brain and behavior.

From the neurobiological bases we will understand human behavior.

## Module 4

### The neuro tool

Report. Graphics and neuro behaviors in each dimension.

Interpret and analyze the NeuroQuotient report. Observe the client's needs for improvement.

## Module 5

### Feedback

Transmit the results to the client guiding the focus to the priorities.

How to debrief the results boosting the client's development.

## Module 7

### Web-app management

Using the NeuroQuotient® web-app.

Manage log in, surveys, clients and reports and relationship with the system administration.

## Module 7

### Final tutorial

Feedback practice with a tutor.

Supervision of one or two feedbacks before the Certified Practitioner gives it to a real client.
